Mission Statement

To conserve, restore and promote the sustainable use and enjoyment of our natural resources, including soil, air, woods, waters, and wildlife. The Jaques Chapter will focus locally to educate and empower people of all ages to support this mission.

Goal 1: To educate and enlist local people to help carry out this mission.

We do this by providing volunteer opportunities for members and the public. We continue to publish the Acorn newsletter and increase the Acorn subscription list. We maintain and publicize the Jaques Chapter website. We contribute news and feature articles to the local media. We hold public information meetings with topics of local interest to a wider audience. We work to increase membership and actively collaborate with other organizations in the community.

Goal 2: To demonstrate the value of our natural environment through direct environmental and preservation actions.

We do this by providing volunteer opportunities for members and the public. We continue Schuneman Marsh programs and publicize the marsh's public value and access. We volunteer for advisory committees at watershed districts, county, and city government.

Goal 3: To support initiatives of the Minnesota and National IWLA organizations through direct Chapter actions and individual initiative.

We do this by encouraging members sign up for email alerts from the Minnesota and National offices of the Izaak Walton League of America. We publicize initiatives through the Acorn newsletter and our chapter website. We volunteer at the Minnesota Division of the Izaak Walton League of America and become active in Minnesota Division's meetings. We communicate with our elected representatives regarding environmental issues that have local, state, and national impact.

Activities

- Enhance sustainability of Schuneman Marsh Wildlife Preserve.
- Provide educational opportunities for local area residents
- Support conservation activities.
- Hold public meetings on conservation issues.
