Streamlining Public Hunting Access to Private Land

There is a need for cooperative use of private lands for recreation. Be it resolved that the Minnesota Division Izaak Walton League of America in convention, at Sandstone Minnesota, April 10, 2011 recommends that the Minnesota DNR

1. Explore programs such as Kansas' "Walk-in Only Hunting Access" program in which landowners, receiving monetary compensation, voluntarily participate, allowing public access to their land, posted with "Walk-in Only" signs.
2. This program would be financed through increased hunting license fees.
